- Screwdriver

These instructions are provided for safety. It is very important that they are read carefully and completely before beginning installation.

We strongly suggest that all hard-wired fixtures must be installed by a professional electrician.

For customer service questions call 1-800-338-2150

TO ASSEMBLE:

1. Shut off the main electrical supply from the main fuse box/circuit breaker.
2. Position the mounting plate on the wall and mark the location of the mounting holes. Drill the holes in the wall and then insert the plastic anchors.
3. Attach the mounting plate (A) to the wall junction box using the enclosed mounting screws (B) and tighten the screws with a screwdriver.
4. Connect the electrical wires as shown in Fig. 2, make sure that all wire connectors are secured. If your outlet has a ground wire (green or bare copper), connect the fixtures. Ground wire to it. Otherwise, connect the fixture's ground wire directly to the circular strap using the green screw provided. Tuck the wire connections neatly into the outlet box.
5. Attach the back plate (D) to the mounting plate (A) and secure with two allen screws (E) and tighten with the spanner as per Fig. 1.
6. Install the light bulb (G) into the socket.
7. Restore power to junction box and test fixture. DO NOT EXCEED SPECIFIED MAX WATTAGE.

CARE INSTRUCTIONS:

Wipe with a soft, dry cloth. To protect finish, avoid the use of chemicals and household cleaners.
