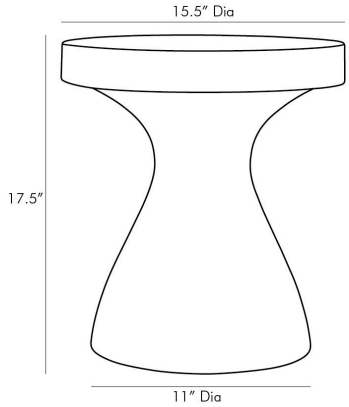
# SERAFINA ACCENT TABLE



5585
Sahara Faux Marble, Concrete Composite

Tricky like trompe l'oeil this stunning table has a secret—though it looks to be made completely of stone lift it and you'll discover it's much lighter in weight. Made from lightweight concrete its sahara marble-like façade is made in a process called hydrographics. Since the process is done individually each piece will have a look that varies slightly in veining and color scale.
