 Smoke Luster, Glass
 H: 32 IN
 Dia: 20.0 IN

The Dreena presents a stacked foundation of overt organics that is quite alluring. Seedy glass is blown by hand creating the unexpected shapes that form along an antique brass frame. Each organic orb is accented with an antique brass ring breaking up its curvaceous silhouette. A smoke luster finish takes the design to the next level. Topped with a pewter microfiber drum shade. finish will vary.
