

ROCHESTER END TABLE

4589

Burnished Gold

H: 24 IN

Dia: 24.0 IN

Split between two tones, this side table is a modern wonder. The lighter top is an antique gold, where the bottom section is done in a burnished gold, adding the immense level of sophistication and craftsmanship. The table top is crafted with a sandblasted texture and the top of the base is molded to a heavy woodgrain pattern, so texture and intrigue are immense throughout the piece.
