Seedy and Smoke

Luster Ombre, Glass

H: 30 IN

Dia: 20.0 IN

Like the gathering of storm clouds, this lamp brings mystery and moxie. The large-scale sleek formation of the seeded glass base is first mouth-blown and then finished in a smoke luster ombre to create its dark and moody features, which are lifted when illuminated. Topped with a tapered white linen shade with white cotton lining and an acrylic sphere finial on a brass base. finish will vary.
