

POWELL LARGE MIRROR

4711
Tobacco
H: 37 IN

Equal parts classic and masculine, this mirror is a simple design with a twist. literally! Bands of tobacco-hued leather surround the plain glass mirror and is topped with a brass-plated knob and matching leather loop, so it has an almost equestrian feel. The knob is purely decorative, though, because the base is mounted with a security cleat. It is also available in a smaller version (4712).
