

HALETTE WALL SCONCE

49755
Bronze, White Onyx
H: 9 IN
W: 7.5 IN
D: 4 IN

The minimalistic aesthetic of this sconce is a design force to be reckoned with. Setting the foundational stage is a gorgeous circular slab of white onyx, which is elevated by a bronze steel accent that adds dimension. The onyx works to filter the light and create a natural warm glow. We see this jewelry-inspired sconce, hung in multiples, adding a contemporary-classic vibe to a space. Certified for damp locations and intended for interior use. Damp-rated, although limited covered outdoor areas may affect finish.
