

GERON SIDE TABLE

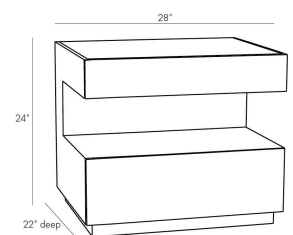

5649

Satin Walnut

H: 24 IN

W: 28 IN

D: 22 IN

The modular concept of this end table delivers a defining element to a space. C-shaped construction features a satin walnut on oak veneer finish that hones in on natural textures, but in a more visual and less tactile way. A black gloss lacquer finishes the tabletop while its nearly hidden base completes the look with a black wood finish for a contemporary contrast to its Mid-Century appeal. The Geron is structural, functional art for modern spaces.
