

SMYTH LINEAR CHANDELIER

Several limbs of lighting establish the steel structure of this chandelier, giving it a linear and angular form. Its modern design is so that each light can be pivoted to shine wherever you need—you can even configure them to make it all more linear, too. The smoky luster glass globes feature a fluted detail, which add to the vintage-inspired look of the entire piece. It's finished in antique brass. Additional pipe available (PIPE-206). Certified for damp locations and intended for interior use. finish will vary.
