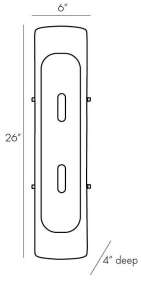
BEND WALL SCONCE

DA49015
Blackened Steel,
Smoke Luster Glass
H: 26 IN
W: 6 IN
D: 4 IN



The Bend sconce casts dynamic, directional patterned light through a long, narrow half-cylinder of rippled glass. A celebration of the subtle variations of hand-blown glass, Bend's textural smoke glass floating shade encases a modern, pill-shaped blackened steel plate, creating a bold interplay of materials and forms that make it an ideal choice for corridors and vanities. Certified for damp locations and intended for interior use.
