

VASILI FLUSH MOUNT

DFC05
Clear Seedy
H: 14 IN
Dia: 17.5 IN

Fashioned after midcentury Italian lighting, the Vasili flush mount is created with an inverted, pan-shaped shade of clear seeded slump glass. Lustrous, opaque opal glass in a cone shape forms the housing for an LED bulb. A cupped canopy and shade detailing is created in antique brass finished iron. Finish will vary. Certified for damp locations and intended for interior use.
