

JACQUELINE LARGE CHANDELIER

DLC47  
 Antique Brass, Amber  
 Seedy Glass  
 H: 38 IN  
 Dia: 42 IN

Translating a cascading wind chime-inspired silhouette into a grand statement, the Jacqueline Large Chandelier features round amber seeded glass drops suspended from an armature of antique brass-plated steel. Each glass element hangs from a delicate chain, refracting light to create a dazzling, high-impact effect in larger spaces.
