

BERKLEY MULTI-DROP CHANDELIER

DLC61

H: 50 IN

W: 82 IN

D: 7 IN

Composed of six solid crystal diffusers suspended in an alternating diamond and oval arrangement, the Berkley Multi-Drop Chandelier creates a striking study in extension and balance. Each faceted crystal captures and refracts concealed LED light, delivering a crisp, luminous glow with cool sophistication. Finished in vintage silver, this multi-drop chandelier brings modern geometry and sculptural clarity to contemporary interiors. While the crystal positions are fixed and cord lengths are not adjustable, the ceiling mounts can be repositioned to customize the fixture's overall width and height.
