

BRETMAN WALL SCONCE

DWC26
 English Bronze
 H: 15 IN
 W: 5 IN
 D: 4 IN

Brilliantly simple, this sconce of tubular glass in a matte swirled finish with a steel backplate of English bronze provides an elegant glow. The curved lines and burnished finish of the integrated LED design recall Deco furnishings, yet the technology is completely modern. Certified for damp locations and intended for interior use. Finish will vary.
