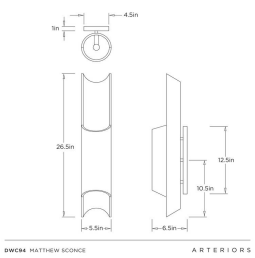
MATTHEW WALL SCONCE

DWC94
Ivory
H: 26.5 IN
W: 5.5 IN
D: 6.5 IN



The curved lines of architectural arches find their match in this ivory riverstone composite sconce. Mounted on a rectangular backplate of English bronze-plated steel, this ivory-hued light's cut-out effect allows light to be gently projected both upwards and downwards, making it a dramatic option when hung in multiples or a pair. Finish will vary.
