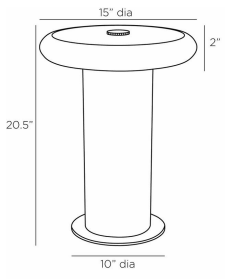
BUCKLEY ACCENT TABLE

FAI11
Washed Tobacco
H: 20.5 IN
Dia: 15.0 IN



This sleight-of-hand material mix draws the best from the industrial and natural worlds. Buckley's solid column of mango wood in a washed tobacco finish is topped with smoke cast glass for interest and finished with a blackened iron base. Its bullnose profile is adorned with a blackened iron screw at the top for easy lifting and moving. Wood and glass will vary.
