

HILBECK COFFEE TABLE

FCI20
 Limed Wash
 H: 16 IN

An oversized slab of limed-wash mango wood is heavily carved and sandblasted to bring out the material's natural texture. Finished with a rhythmic grooved texture on the sides and legs, the pure form of this transitional style allows it to work within any coastal or contemporary setting. A multi-purpose accent piece, the Hilbeck can also serve as a bench. Finish will vary.
