

DELRIO OUTDOOR BENCH

FHS04
Honey
H: 30 IN
W: 92 IN
D: 20 IN

The low-slung companion to our Delrio dining table, this teak wood bench is the perfect synthesis between Japanese and Southwestern style. Stained in a rich honey hue, its supportive back and seat possess expansive planes to cradle the body. Matching honey synthetic rope wraps each keenly angled leg. A notched detail where the back meets the base allows it to float within any outdoor seating area. Finish will vary.
