

HUDSON CABINET

FNS16
Sable
H: 39 IN
W: 42 IN
D: 17 IN

Utilizing a technique that dates to 17th-century Europe, the Hudson is finished with carefully applied sable oak veneer using the oystering parquetry technique across the front of a matching sable oak veneer frame. Chamfered at the top frame and finger pulls, it is finished with a recessed top and angular plinth antique brass base. The single adjustable shelf makes it a versatile cabinet for any home. Oyster will vary.
