FRI43 BAHATI CHAIR

ARTERIOS

The Bahati Dining Chair pairs sculptural simplicity with artisanal craftsmanship. A gently curved back and generous seat are upholstered in a performance chenille, offering subtle tonal variation and inviting texture. Slender, hand-forged iron legs create a poised, architectural frame, their refined lines highlighting the integrity of the metalwork. Elegant yet understated, this dining chair brings warmth and quiet sophistication to the table. For those preferring a matte finish on the legs, the iron can be lightly brushed with a Scotch-Brite pad to reduce the sheen.
