KEEGAN COUNTER STOOL

FSI23
Morel Leather
H: 35 IN
W: 18.5 IN
D: 19 IN

Blending classic and contemporary elements, this counter stool features a low back and a solid walnut frame with elegantly tapered legs that enhance its refined silhouette. Upholstered in top-stitched morel leather, the back is finished with a couture-inspired cross-stitch detail, adding a sophisticated, handcrafted touch. Thoughtfully proportioned, its transitional design complements a variety of interiors, while the sculpted lines and sturdy construction ensure both comfort and lasting durability. Finish will vary.
