

MELT LARGE DINING TABLE

GAFDI02  
 Cerused Natural  
 H: 30 IN  
 Dia: 55.0 IN

This style explores the joining of soft, malleable forms, featuring connective elements with the same a molten quality. The cerused natural ash wood entry table, topped with polished white marble, plays with the juxtaposition of materials and shapes. The resulting liminal space of the split base creates a sense of airy lightness through an intentional vertical reveal. Finish will vary.
