

WRANGLE WALL SCONCE

GDDWC06

H: 31.5 IN

W: 6 IN

D: 13.5 IN

This wall sconce features a fully adjustable arm that moves in every direction and holds its shape, allowing for a range of functional and sculptural configurations. The adjustability of this sconce makes it well suited for bedside use. Made from bronze iron with a leather accent at the ring that supports the arm, it combines structure with subtle detail. The bronze finish functions as a neutral, adding warmth without overpowering a space.
