

ARTERIOS

GABY CHANDELIER

89487

Contract Suitable As Is

The Gaby defies the expectations of what a traditional or modern chandelier should be by marrying the two design elements. An antique brass steel frame sets the stage for this eight-light electrolier. Each arm extends to showcase a classic white linen shade, which is elegantly offset by clear glass sleeves that cap the bottom as a contemporary counterpart. Its balanced design allows this piece to easily function in, or blend into, traditional and modern settings. Finish will vary. Additional pipe available (PIPE-203). Damp rated, though limited outdoor conditions may affect finish. Damp-rated, although limited covered outdoor areas may affect finish.
