GLAZE DOME SCONCE

WORKSHOP

8" Dia

DA49008

Contract Suitable As Is

The Glaze Dome Sconce uniquely highlights the collection's ivory stained crackle surface, with the Glaze Small Sconce's form flipped to face the wall and conceal its light source. The result is akin to an eclipse, with the fixture casting a soft, indirect backlight that sets a dramatic tone for bars, bedrooms, powder rooms and hallways and pairs beautifully with its front-facing cousin. The Glaze Dome Sconce is ADA compliant. Damp-rated, although limited covered outdoor areas may affect finish.
